# Thank you for choosing a COBY MP3 player!

~This guide will cover how to transfer your music CD's into your COBY MP3 player using Windows Media Player 11.

~This guide will also provide common troubleshooting solutions for your COBY MP3 player.

Requirements

Windows Media Player 11 (WMP11)

The directions in this guide are given for Windows Media Player 11 (WMP11)

If your computer does not have Windows Media Player installed, please download the latest version of Windows Media Player (WMP) from Microsoft's website
www.microsoft.com/windows/windowsmedia/player/download/download.aspx

AUDIO TRANSFER – Getting Started

Transfer your Music CD's into your COBY MP3 player

1) Launch the WMP11 program.

Windows Movie Maker

Windows Media Player

Adobe

Adobe Brid

Adobe Help Center

Adobe Illustrator CS2

Adobe ImageReady CS2

Adobe InDesign CS2

Adobe Photoshop CS2

AppRocket

1c. Click on "Windows Media Player"

1b. Click "All Programs"

1a. Click "Start Menu" button

All Programs

start

2) Put an audio CD into the CD-ROM drive of your computer.

✦   If your computer has an internet connection,
      WMP will automatically retrieve and display
      the album information.

   Click the "**Rip**" tab and select which "Title" to rip.

      ☑   To rip the entire album, check the top check box.

3) Set the Rip Options (optional).

Click the "**Rip**" button to set the Rip options. The recommended Rip settings are:

✧ Select "Format > mp3"

✧ Select "Bit Rate > 128 Kbps"

✦ Select "More Options" to change the directory to which WMP saves your ripped music files ✧   WMP will save your music to your "My Documents > My Music" default folder.

4) Start ripping the CD.

Click the " Rip " button and select "Rip" to start converting the audio CD to MP3/WMA

★ The ripping process will take a few minutes to complete. WMP will save the converted music files in your "My Documents > My Music" default folder.
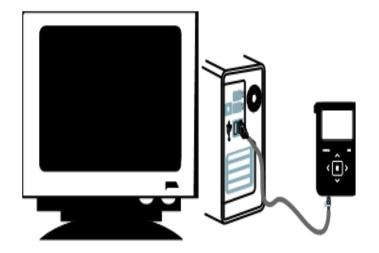

Transfer MP3/WMA Files to Your COBY Player

Once you have MP3 or WMA digital music files on
your computer, transfer them to your COBY player
in order to listen to music anywhere.

Use WMP11 to transfer (sync) music from your computer to your COBY MP3 player.

1) Launch the WMP11 program.

2) Connect your COBY player to a USB port on the computer.

✦   WMP11 will detect your COBY player automatically.

3) Browse your music library to choose songs to sync.

4) Select songs to sync to your COBY player.

| Library | Rip | Burn | Sync | » |

lion

4a. Type in the Search bar to quickly find a song.

Album

Germs

Media Bli
Germs
Punk

Lionel Richie

Coming Home
Lionel Richie
Soul And R&B

I Call It Love
Sweet Vacation
Why
What You Are
All Night
Coming Home
All Around the World
Out of My Head
Reason to Believe
Stand Down
I Love You

4b. Click on a track to select it for synchronization. To select multiple tracks, hold the CTRL or SHIFT and click on the tracks.

Pedro The Lion

11

MP-C951
Generic
7.4 GB

4c. Drag the selected tracks here to add them to the Sync List.

Sync Lis

Many Rivers To Cross
Homeland and Hip Hop
Damaged Goods
Two-Headed Boy
05 - 53rd & 3rd - Ram...
The Illest (ft. Jean Gra...
Hater's Anthem - Jean ...
Hustler's Ambition
Holla (Ft. Dr.Dre)
Mos Def & Talib Kwel
Revolution 909 - Daft
Daft Punk Is Playing A

Start Sync

4d. Click "Start Sync" to transfer the Sync List to your COBY player.

5) Disconnect your COBY player from the computer.

Once the sync process is complete, unplug your player from the USB port of the computer. Now you're ready to listen to music on your COBY player.

NOTE: Any files can be transferred to the MP3 player by using the drag and drop or copy and paste method. If you have existing files on your computer, they can be transferred into the MP3 player using any of the above method.

VIDEO TRANSFER – Getting Started

Converting your VIDEO files and transferring it into your player.

Install the PDConverter & the Xvid encoder
1. Insert the driver CD
2. The CD will Auto-run, Click on the "Video Converter"
3. You will be brought the (PDConverter & Xvid) download web site, which will prompt you to select your download
4. Download and Install **PDConverter v1.7.1.14** and **Xvid**

Run the Conversion Utility
1. Click on the "PDConverter" located on your desktop
2. The program will initialize

### Converting Video (see diagram below)
1. a Find and Select the video files to convert in the ADD field.
1. b Select the directory where you want to save the converted file.
1. c Start the conversion process by selecting "Encode Now!"

When the conversion is completed, Copy and Paste or Drag and Drop the converted files to your MP3 player.
Done!!

Video Converter

1.a Add   Clear

Input Video Files	Type	Size	Status

There are no A/V files to show in this panel.

Audio

Bitrate	128 Kbps
Frequency	44100 Hz

Video

Frame Rate	15 fps
Resolution	128:128

Target Location:

E:\   **1.b** ...

Common Troubleshooting

Problems	Possible Solutions
No Power	*Ensure that the HOLD button is turned off *The Battery level may be too low. Charge the unit. *Reset the unit.
Song Freezes	*Make sure your WMA file(s) are not DRM protected. *The file(s) are corrupted or damaged. *Unsupported file format (ACC, WAV, M4A…Etc.)
MP3 Player not recognized by the Computer	*Check the connections *Switch USB ports *Go into the player SETTING and change the CONNECTION to either MSC or AUTO.
No sound after file transfer	*Ensure that the headphone is attached securely to the player. *Make sure your WMA file(s) are not DRM protected *Unsupported file format (ACC, WAV, M4A…Etc.)
Video Conversion Error	*Ensure that the original file plays on your computer. If not, then you will need to obtain the codec for that file. *Unsupported format
Video Issues	*Make sure that you are using the correct output frame size and the correct output frame rate. *For the best output frame size, set the MTV Video Converter to 128X128 @ 15fps
Volume Issues	*To change the volume, press the DOWN button twice. *Once the Volume appears, press the UP/Down to change Volume
